Passionate and innovative Software Developer with expertise in Java, Spring Boot, Microservices, and Spring Security. Dedicated to continuous learning, I aspire to evolve into a Full Stack Developer with java . Proficient in designing and implementing software solutions, my journey began with mastering Core Java. I expanded my skills with Servlets, JSP, and Swing for dynamic web and desktop applications. Further advancing, I developed REST APIs using Spring Data JPA, Lombok, and Thymeleaf. Specializing in Spring and Spring Boot, I excel in Microservices and Spring Security. Currently exploring new technologies to contribute effectively to development projects.

WORK EXPERIENCE

Intern

The Baap Company | Sangamner

Aug 2022 - Present

As an intern at BAAP Company, I have had the opportunity to work with a diverse range of technologies, significantly enhancing my technical skill set. My primary focus has been on Java, Spring Boot, Microservices, and REST APIs. However, my experience extends beyond these to include:

- Backend Technologies: Java, Spring Boot, Microservices, REST APIs, Python, Node.js
- Frontend Technologies: React, React Native
- Databases: MongoDB, MySQL, MariaDB
- Blockchain: Proficiency in Solidity and libraries like Ether.js, Web3.js, ERC20, and ERC721
- DevOps and Deployment: Project deployment using AWS
- Version Control and Development Tools: Linux, GitHub, GitLab

Through hands-on experience, I've tackled real-world challenges, taking ideas from inception to deployment. This journey expanded my skills in full-stack development, fueling my passion for continuous learning and innovation."
